

C language

COURSE

- 1) Introduction to Programming Language
- 2) Input / output statements
- 3) Expressions in c
- 4) Operators
 - Arithmetic operator
 - Relational operator
 - Logical operator
 - Assignment operator
 - Increment decrement operator
 - Conditional operator
 - Bitwise operator
 - Special operator
- 5) Control statements in C
 - Simple if
 - If else
 - Else if ladder
 - Nested if
 - Switch case
- 6) Looping statements
 - For loop
 - While loop
 - Do while loop
- 7) Jumping statements
 - break
 - continue
 - goto
 - forward
 - backward
- 8) Array in C
 - 1-D
 - 2-D
- 9) String
- 10) Function
- 11) Structure and union
- 12) Pointer
- 13) File handling
- 14) Command line arguments
- 15) Console based Project
