

Agentic AI with Cloud

Agentic AI

- Introduction to Agentic AI
- Phi Data: Agentic AI Framework
- LangChain
- LCEL (LangChain Expression Language)
- LangServe for Efficient AI Deployment
- LangGraph
- UX and Human-in-the-Loop with LangGraph
- Agentic RAG
- Designing Multi-Agent Systems with LangGraph
- CrewAI Platform
- LangFlow Overview and Setup
- Integration with Third-Party Tools
- Langfuse for LLM Observability
- Metrics and Monitoring in LangWatch
- Langsmith
- Introduction to Autogen
- End to End Agentic AI Projects

AWS (Amazon Web Services)

- AWS Cloud & Services for Generative AI
- AWS Bedrock : Foundation Model Integration
- AWS SageMaker : Model Training & Deployment
- AWS Lambda : Serverless Computing for AI
- AWS API Gateway : Connecting AI Applications
- Text Summarization with AWS Services
- Fine-Tuning Foundation Models on Custom Data
- Project AWS : Implementing AI with AWS Services

GCP (Google Cloud Platform)

- GCP Basics & Introduction to Vertex AI
- Gemini Models with Vertex AI and Google AI Studio
- Project : AI Deployment with GCP

Azure (Microsoft Cloud)

- Introduction to Azure AI & Cognitive Services
- Azure OpenAI Service: Using GPT Models
- Azure Machine Learning: Model Training & Deployment
- Azure Functions: Serverless AI Applications
- Azure AI Search & Knowledge Mining
- Fine-Tuning Models on Azure AI Studio
- Project: Implementing AI with Azure

We are providing Training in Below Courses

Project Training

-:-

Internship

C/C++	Python / Django	Data Analysis
DSA	React Js / Angular Js	Power BI
DBMS	MERN / MEAN	AI / ML
Mongo DB	Full Stack Development	Data Science
Java/Ad. Java		Generative AI

- ***Certified Courses.***
- ***100% job assistance*.***
- ***Courses with Hands-On Projects.***
